

# INTRODUCING

## TM8254 ANALOGUE MOBILE RADIO

### THE CONTROL OF MOBILE RADIO IS IN YOUR HANDS

The trunked/conventional TM8254 places a tough and versatile analogue mobile radio into the palm of your hand.

#### Saves space

- With its hand-held control head, dealers, solution providers and fleet owners can save space and reduce risk of damage to modern vehicle interiors.

#### Fast to install

- Speed-of-install keeps fleets on the road instead of in the installation bay: improving the bottom line.

#### Flexible configuration

- Remote mount options allow the TM8254 body to be stowed in the rear of the vehicle.

#### Ultimate user control

- Users have ultimate control through precise dialling/message creation and exact positioning of the display.

Talk to Tait today or ask one of our authorised dealers about the TM8254.
